What the Law Makers Are Doing in the Legislature

The Legislature of Alberta will meet again on Wednesday, April 2nd, in the final dash to complete the work of the session. Unless unforeseen developments arise, the House will be prorogued, or perhaps dissolved, on Friday or Saturday at the latest.

Clauses embodying the latest concession from the Federal Gov't will be inserted in the Natural Resources Bill and third reading proceeded with. No opposition may be expected.

The new School Bill, will, of course, receive the greatest attention and may encounter strong opposition. The members have probably heard strong opinions expressed, for and against, by their constituents during the recess and may have much to say for themselves.

Other bills, mainly of local interest are yet to be passed. These include charter amendments for Edmonton and a bill to regulate mining in cities. This last is chiefly of interest to Edmonton where some excitement has been caused by subsidence of the ground endangering buildings.

A convention of the Liberals of Alberta provided political interest for the week. A new leader, J. W. MacDonald, of Macleod, was chosen to lead the party back to power. Mr. MacDonald is well and favorably known in Southern Alberta chiefly because of his able administration of the affairs of Macleod. A warm election may be expected in the constituency of Macleod when the new leader attempts to find himself a seat at the expense of the sitting member, W. H. Shield, U.F.A.

It should be a matter of regret to the Liberals that Mr. Shaw has resigned. His work as party leader during the present session has been especially praiseworthy. To the unbiased spectator in the gallery Mr. Shaw has been surpassed in effectiveness only by the Premier himself.

It should be a matter of regret to the province as a whole that two of the ablest members of the House have practically dropped out of politics during the present session. Mr. McGilivray has not only resigned as leader of the Conservatives but has not been able to occupy his seat. Although Mr. Shaw has carried on as House leader of his party for the session he will probably drop out as soon as it is over. But strength is desirable in the Opposition, as well as in the Government. Constitutional authorities recognise the necessity of having strong and competent opposition to secure well-balanced legislation as well as to spur on the government to its best efforts.

ROSEBERRY

The Roseberry Glee Club gave a splendid entertainment in the school on Friday evening March 28th by presenting the play "Deacon Dubs". The school was crowded and in fact a large number were unable to get even inside the door.

The play was a decided success the audience being provided with merriment and fun for about two and a half hours, and these young people are to be congratulated on their success.

The Cast

Charles Younker, as "The Deacon" was exceptionally well received and represented in good style the good natured Yankee farmer "from State o' West Virginny", out for a good time. Miss Jean Walker, as Miss Philomena Popover, played well her role as friend and housekeeper to Rose Raleigh, at the same time keeping her eye well open for the "Deacon", while Miss Olive Rush as Rose Raleigh portrayed in a pleasing manner her fear of Rawdon Crawley and love for Amos Coleman, especially was she charming as "The bride".

Mr. George Taylor as Amos Coleman, a struggling young lawyer, appealed to everyone in his desire to save Rose's old home from the Auctioneer and in his fight with Rawdon Crawley.

The love affairs of Yennie Yenson the Swede girl and Deteronomy Jones the hired man, were a very amusing part of the play. These characters were played by Mr. Howard Oldham and Mr. Seth Oldham, respectively.

Miss Margaret Walker as Trizie the mischief and fun puller kept things going lively for the Deacon and Miss Philomena. Rawdon Crawley was a most malicious villain and succeeded in arousing the hatred of the audience

as the "Tramp", and in the fight scene. This role was played by Mr. Harold Morris.

Emily Dale who takes up with the smoothed and calculating business man and one time convict was pleasingly impersonated by Miss Anna Carmichael.

The part of Major McNutt, "The Auctioneer" was ably taken care of by Mr. E. "Jake" Darling, who looked and acted the part of the conventional auctioneer with his "Legal Documents."

Villagers and huskers and children represented by the Younker, Carrington, Walker and Morse families, complete the cast of "Deacon Dubs" from Sorgum Centre, State o' West Virginny.

The Orphindale Orchestra entertained between acts and played for the dance which followed the play.

TO RENT—Good farm to rent on crop rent. 120 acres broke, good buildings and good well. East half, 38-46-9-2.—Apply J. H. Elliott, Irma, Alta.

Here and There

(488)
Speaking on Canada's stake in the Pacific before the Montreal Canadian Club recently, Hon. Newton Rowell, vice-chairman of the Canadian Institute of International Affairs, took occasion to compliment Canadian Pacific Steamships on their work on that ocean. He said: "There are many lines of steamers plying from North America to the Orient and one of the best is still the Canadian Pacific Steamships; there is no other freight and passenger service on the Pacific Ocean. The service is equal to that of the Canadian Pacific Company. We owe a great deal to that institution in developing trade."

Waiting sportmen coming to New Brunswick for hunting and fishing have almost doubled in the past five years, according to figures given out by Hon. G. H. Prince, Deputy Minister of Lands and Mines of the province.

Additional air mail service was inaugurated between Winnipeg, Calgary, Edmonton and the Yukon by the Canadian Post Office Department, leaving only the Rocky Mountains and the Pacific Coast and from western Ontario to Winnipeg unserved by air mail. It is expected that at least a portion of this territory will be linked during the coming summer.

Preparations are being made for the first census in Canada in 1931. The census is due in 1931. The census will give employment to 15,000 persons and was taken in 1931 and has been taken every ten years since then.

M. M. Robinson, chairman of the committee of management of the British Empire Games, to be held at Hamilton next August, is already assured of the co-operation of the Canadian Government. It is proposed to award S.S. Montreal recently, he stated that not only was he sure that there would be 200 British athletes at the games, but that the meet would be the biggest of its kind Canada had ever known.

"One of the objects of the visit of the English public school headmasters party due to arrive at Sault Ste. Marie Saturday, April 5th, is to promote the teaching of Canadian history in Great Britain," says Kenneth Lindsay, who is travelling ahead of the party. It will consist of 15 headmasters and they will visit nine Canadian universities from Quebec to British Columbia.

Accepting regular radio programmes made outside the United States for the Canadian National Broadcasting Company of New York has come to an agreement with the Canadian Pacific Railway under which the latter will supply Western and American stations in the United States with programmes of "Canadian Pacific" "Cheerful and good" music. These will be broadcast Sunday evenings from 9.15 to 9.45, Eastern standard time, and the programmes and series will be broadcast by the American company from its stations consisting of Royal York Hotel orchestra dance music every Wednesday midnight. Eastern standard time, commencing April 9.

CHURCH NOTICES AND ACTIVITIES

UNITED CHURCH NOTES

The summer school will go into effect next Sunday. Please note the times of the services:

Albert School at 12 noon,
Alma Mater at 3 p.m.

At Albert School, the Sunday School will be organized including the formation of a Bible Class. For the following Sunday, April 13th arrangements will be made for other points.

The topic for next Sunday will be "Forgiveness."

It will be of interest to everyone to know that Dr. Dobson is expected to visit Irma on April 15th or 16th. Dr. Dobson is associate secretary of the Board of Evangelism and Social Service and a most inspiring speaker. No one should miss hearing him. Next week we will have definite particulars regarding this visit.

It is drawing near to the time of the nineteenth centenary of Pentecost which will be celebrated throughout the Christian Church. Perhaps the next momentous book of the year is that of E. Stanley Jones entitled, "The Christ of Every Road".

The price of this book is \$1.50 but it may be purchased through the pastor for \$1.00. This is done through the generosity of a number of laymen who are anxious that this book may have a wide circulation. This book is a challenging one and no one can afford to overlook it. It is a study of Pentecost and a challenge to the times. We read many magazines and novels, let us read at least one good inspirational book a year. Your choice could not be better than "The Christ of Every Road".

The Parcel Post Social held in the Church last Friday was a great success. There was a very good attendance and everyone enjoyed themselves. A short program was given including a short play entitled "How the Story Grew", in which eight ladies took part. This provoked hearty laughter because of the amusing situation that was developed. The papers were useful and the lunch good. The proceeds were satisfactory. The program was as follows:

Reading by Mrs. E. Simmons.
Piano solo by Ray Locke.

Piano solo by Eileen Geeson.
Play "How the Story Grew".
Madames Maguire, Locke, Geeson, Carson, Johnson, E. Simmons, Reeds and Freckleton.

ANGLICAN CHURCH

Next service will be held in Irma United Church on Sunday, April 13th at 3 p.m.

The W. A. will meet on Tuesday next, April 8th at the home of Mrs. S. Miles at 2.30 p.m. Every lady welcome.

The W. A. are holding a tea and sale of home cooking on Main street, on Saturday, April 19th.

THE DOMESTIC ANIMALS ACT (MUN.)

SALE AND REDEMPTION OF IMPOUNDED ANIMALS (Sec. 48)

Notice is hereby given under Section 48 of The Domestic Animals Act (Municipalities) that

1. Gray Mare, branded reversed Y in circle over Y in circle, was impounded in the pound kept by R. Headon located on the S. E. 32-45-7-16, March, A.D. 1930, and that the said animal was sold on the 24th day of March, 1930 to Peter Shanchuk of Wainwright, Alta.

— and that animal may be redeemed by the owner or on his behalf within a period of thirty days from the publication of this notice in The Alberta Gazette, upon payment of all fees and costs due to the municipality and the purchaser of said animal.

R. J. TATE, Sec.-Treas., of the Municipality of Battle River, Post Office, Irma.

NOTICE OF THE MUNICIPAL DIST. OF KINSELLA No. 424

Complaints having been received concerning rubbish, tin cans, etc., being left lying around the Hamlets of Kinsella and Jarvie, notice is hereby given to the various persons responsible that the Council insist upon these being cleaned up. The Health Inspector will be visiting shortly when he will check up on this.

There's "Gold" In The Golden Rule

A heading in a business magazine reads: "There's Gold In the Golden Rule," and the accompanying article proves it. There is no doubt that following the Golden Rule, in business as well as out of it, in the long run will be more profitable than otherwise, and by this we mean materially profitable. There is a principle recognized by modern business that the business man, to be permanently successful, must contribute to the profit and welfare of those who deal with him, those from whom he buys as well as those to whom he sells. And in a measure, this is recognition of the Golden Rule.

But here comes the rub. Is the Golden Rule observed, even to such a limited extent, for itself or for the "gold" which may be mined from it. Is it observed because it is the right thing to do or because it is the more expedient, the more profitable thing? Are we to "do unto others" from pure delight in the doing, or because we wish to have them do the same to us? The real beauty, and force, and advantage of the Golden Rule lie in our attitude toward it. Its efficacy is in itself and in what prompts us to practice it.

Just to follow the Golden Rule because there is "gold in it," would be much the same as being honest because it is the "best policy." Neither impulse would rate high among the things considered admirable. To follow the Golden Rule because it charts the inherently right course in our dealing with our fellows and because we wish to be and to do right, is in the highest degree commendable. But to follow it merely or chiefly because "there's gold in it" is—well, not something we would care to boast about. The greatest profit which comes from living the Golden Rule cannot be set down in dollars and cents.

Throughout Western Canada our people have very largely accepted and adopted the principle of co-operation in connection with their economic relations and business. Unfortunately, it is not quite so generally accepted and acted upon in other community relationships. The question, therefore, naturally arises: Has this acceptance of one of the principles found in the Golden Rule resulted from a belief that "there's gold in it," rather than from a conviction that co-operation is indeed the better way for all concerned? Have we established, and are we maintaining, our great co-operative enterprises solely on a dollar and cents basis, or are a majority of our people earnestly striving to, in this way, make some contribution to the welfare of others?

Many fine and lofty sentiments—the sentiments of the Golden Rule—have been uttered by advocates of co-operation, and we are convinced that scores of men and women have joined co-operative organizations, not because they felt that they themselves would reap any particular benefits, but because they felt such organizations would be the means of benefiting others and the country as a whole. They are practising the Golden Rule because they believe it to be right, not because there may be some "gold" in it for them.

And if co-operation is to live and continue as a vital force in the life and activities of this country, if it is to grow and develop as a great compelling influence and force, not only in an economic sense but in all our community life, it must be through a general acceptance of the view, and its practice in everyday life, that selfishness is wrong and unselfishness is right; that the welfare and happiness of others is our concern as well as theirs; that the Golden Rule is to be practised not because there is "gold" in it for us, but because it is the only correct rule by which to measure our lives and acts; that we must be honest with each other, not because it is the "best policy" but because it is right. If we expect others to accord honesty to us in our convictions, we must likewise recognize and believe in the honesty of convictions entertained by others.

True co-operation is founded on the Golden Rule. It is its underlying principle. It is the only foundation upon which our great co-operative organizations can safely build, not because there is "gold" in it for anybody, but because it is the only safe rule for human conduct and intercourse.

Wheat Sales Affected

**Eating Habits Of Those Who Deserve
Slenderness, Is Held Responsible**

The modern feminine desire for slenderness, according to Professor James L. Boyle, of Cornell University, has altered market standards of length, cutting the consumption of bread by 20 per cent; and considerably affected the wheat sales of the world.

Doctors, nurses, schools and even beauty parlors have helped to bring about these changes, the professor said in an address recently. Meat consumption also has declined, those in search of necessary vitamins preferring oranges, grapefruit, pineapples, lettuce, tomatoes and cantaloupes.

"All these changes in customers' food habits can be considered as market developments," Professor Boyle said. "The consumer is the most important of the people concerned with marketing."

After the horse came the automobile, and right after the automobile comes the collector.

To Study British Methods

**Chinese Officers Will Learn How
"Big Time" Navy Is Run**

Twenty Chinese naval officers and cadets have gone to Great Britain to study British methods of running a "big time" navy.

They are making the trip at the invitation of the British Government, and will remain about two years.

The officers in the party expect to enter Greenwich Naval Academy and take the same course in tactics as British students. The cadets, however, must first spend some time on various naval vessels to learn the rudiments of British navy practice.

Makes Breathing Easy. The contraction of the air passages and the struggle for breath, too familiar evidence of asthmatic trouble, cannot be overcome by the use of Dr. Fink's Remedy. This is the famous remedy which is known far and wide for its complete effectiveness even under very severe conditions. It is no ordinary experimental preparation, but one which many years of strong service behind it. Buy it from your nearest dealer.

Interesting Records

Among the most valuable records preserved in the Public Record Office of England are the pipe rolls, a statement of the King's income and expenditures, so called because they are rolled in the shape of pipes. They date back to 1131 and were not discontinued until 1533.

Insurance Agent: "Good gracious, Mr. Kinklestein, this is your third accident within a month!"

Mr. Finklestein: "Yeah—ain't I lucky?"

Stockings woven of human hair were worn by basket-maker Indians who lived in the southwest about 2,000 years ago.

Minard's for Falling Hair.

Apple Trees For Prairie Farms

**Sixteen Varieties Of Apples Found
Suitable For the West**

After fifteen years of seed planting the experimental work of the Dominion Department of Agriculture has developed sixteen varieties of apple trees suited to the climate conditions of the Prairie Provinces. Of these varieties two have been graded "very good" and four "good." Horticultural experts point out, however, that it will take several more tree generations to evolve the ideal species. Prairie farmers can help in this work by getting seed from the Experimental Station at Morden, Man., for planting in their own gardens.

**DO YOU FEAR
A HEARTY MEAL?**

**Dr. Williams' Pink Pills Will
Tone Up Your Stomach Making
Mealtimes a Pleasure**

Are you afraid of meal-times? Does eating distress you? Would you rather go without food? That is the condition of many due entirely to indigestion. There can be no perfect digestion—unless an enjoyment of meal-time—unless you have rich red blood. This pure blood is necessary to tone up your stomach and make it capable of properly digesting the food.

Many so-called stomach remedies merely try to digest your food for you. That is a mistake—nature should do it for you and not the medicine. Dr. Williams' Pink Pills, containing them, Mrs. Wan T. Thompson, Brussels, Ont., says: "For years I suffered with indigestion, headaches and dizzy spells. I tried a great many remedies, but nothing relieved me. As a farmer's wife with the little girls, it was almost impossible to be idle and I just dragged myself through my work. I suffered from a lack of energy and was afraid of need of medical attention. I was afraid to go to Dr. Williams' Pink Pills, and although I had lost faith in ever being well again, I purchased a supply and began taking them. Gradually the dizzy spells improved and soon I was able to eat my meals. I gained in weight and my health in general is better than it has been for years. I feel I owe a great debt to Dr. Williams' Pink Pills."

You can get these pills from any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

New Species Of Whitefish

Newly Discovered Member Of Flounder Family Found In Macintha

Discovery of a new species of whitefish in Clear Lake, Manitoba, is announced by A. Bajkov, of Manitoba University. The new species has been named Cottorus Odontogobius, in honor of Dr. C. H. O'Donoghue, formerly of the faculty of Manitoba University. The newly-discovered fish is common in Clear Lake. It lives at a great depth during the summer, coming to the surface only in the spawning season.

The worms that infest children from their birth are of two kinds, those that find lodgment in the stomach and those that are found in the intestines. The latter are the more destructive, as they cling to the walls of the intestines and if interwoven with worm work havoc there. Miller's Worm Powders dislodge both worms and while expelling them from the system serve to repair the damage they have caused.

Covered Long Distance

Walter E. Davidson, carrier on a rural route from the post office at Westville, Indiana, for 25 years, retired recently on a pension. During his service, Davidson wore out seven autos, nine horses, two wagons, two sleighs, and travelled approximately 223,000 miles, a distance only 1,775 miles short of nine trips around the world.

A Matter Of Opinion

It is announced that Ontario and Quebec are to have "new penitentiaries which will be models for the world." This brings to mind the presentation some years ago of a Brampton, Ontario, grand jury, if which was stated that conditions at the local jail were such as to make it "one of the most desolate places of residence in the city."

**Imperial Agricultural
Conference Arranged**

**First Meeting To Be Held In South
Africa In 1932**

Another link is being forged in the chain of Empire unity. To the present Imperial gatherings will be added an Imperial agricultural conference, and the first meeting will take place in the Union of South Africa in 1932. The conference will meet every second year.

A tour of New Zealand by farmers

from Britain, Canada and South Africa

provided the opportunity for

deciding on an Imperial conference.

Lord Bledisloe, who has been called Britain's leading farmer, and who has come to New Zealand to assume the governorship, addressed the visiting farmers and representatives of farmers in this great agricultural dominion recently.

Lord Bledisloe called the present meeting a landmark in the history of the empire. He stressed the vital importance of uniformity in the production and sale of agricultural products if a settled, continuous market for these products was to be secured.

The British Empire Producers, Empire Marketing Board and similar organizations will be asked to help in securing agricultural products; empire preferences will be further discussed, and information will be gathered so the next conference can study financial and marketing organizations for farmers, as well as the extension of foreign markets.

Persian Balm Is Inevitably Chosen

by discerning women. Delightful to the use. Subtly fragrant. Cooling and refreshing. Imparts a rare youthful glow to the complexion. Invigorates the skin and makes it look flawlessly white. Tones and stimulates the skin. Useful for the family also. Protects the tender skin of the child and is excellent for the father as a hair fixative and cooling lotion.

Mark Twain's Immortal Boys

**Last Survivor Of Famous Quartette
Died In Seattle Recently**

"Huck" Finn, Tom Sawyer, Muff and Erastus Finn—kids who used to play together in Hannibal, Mo., years back—are all gone now.

The last to go was Erastus Finn, who was not as well known as the others, made so famous by Mark Twain. Ninety-five years old and a veteran of the civil war, Erastus Finn died in Seattle, a victim of pneumonia.

In recent years the old man loved to recall memories of his boyhood days when he and his brother "Huckleberry" and Samuel Clemens were friends of Tom Sawyer.

"Huck" Finn died a few years ago in Eugene, Ore. They're all gone now, are Mark Twain's immortal boys.

Powerful Medicine—The healing properties in six essential oils are concentrated in every bottle of Dr. Thomas' Electric Oil, forming one of the most beneficial emollients ever made. It is a true oil. Many can testify as to its power in allaying pain, and many more can certify that they owe their health to it. Its wonderful power is not expressed by the small price at which it sells.

Times will not be much better so long as the new model of an automobile creates keener interest and invites closer inspection than a grand champion animal at an international exhibition.

Jed—"How did you find your wife when you got home last night?"

Ted—"Just as nice as pie."

Jed—"How's that?"

Ted—"Short and crispy."

Minard's Will Stop That Toothache.

Town Planning Advantage Shown

**An Attractive Community Depends
Greatly Upon the Appearance
Of Its Streets**

The following advantages that accrue from a systematic effort for planning are given by Mr. Stewart Young, of the Town Planning Department of the Saskatchewan Government.

The general appearance of any community is most important, and ways and means by which more agreeable surroundings can be produced are analyzed, it will be found that an attractive community depends greatly upon the appearance of its streets.

The appearance of a business street may be marred by the use of the sidewalk for storage purposes. Gasoline pumps do not add to the appearance of any street and should be prohibited. Electric light and telephone wires, when strung on a street tend to give it a ragged appearance. They should be placed underground in conduits or on lanes.

The appearance of the residential street may be improved by the use of the sidewalk for planting flowers. Every community should have a definite policy in respect of tree planting on residential streets. The boulevard system should be adopted.

Usually a walk four and a half feet in width placed at a distance of about two feet from the street line with a graded roadway about twenty feet in width is sufficient to accommodate the traffic of the residential streets. The intervening space between the sidewalk and the vehicular traffic way should be planted with trees spaced about twenty feet apart, and alternated slow and fast growing.

Several advantages are to be gained by this method of planting. Fast growing trees may be planted in a period of from two to twenty years at the end of which time the slow growing tree has reached a stage where it becomes useful. Moreover, insects and birds attack more than one variety of tree in a season. The result is obvious where a street is planted entirely with one variety of trees.

Deliver Tea By Plane

**Tea Freight Begun On Oxen-Cart
Ends With Trip On Aeroplane**

It is far cry from the slow-moving, primitive, high-wheeled cart, hauled by oxen along the roads of Ceylon, to a speedy aeroplane.

in winter sky over Lake Erie, but many of the people of Pelee Island are now drinking tea, carried there by air, which is jogging along in an ox-cart under a tropical sun in Ceylon only a few weeks ago.

The Salada Tea Company, because of the freezing over of Lake Erie, between Pelee and the mainland, recently shipped several hundred pounds of tea by air in order to replenish the diminishing stock of a certain grocer on the island.

Test Is Satisfactory

The annual retest of the herds in the Fraser Valley, B.C., for T.B. is being carried on at present by about twenty veterinarians. More than half of all the dairy cows in the province (55,000) are located within this area and in the last test only three quarters of one per cent. re-reacted.

New Municipal Bridge

The cities of Winnipeg and St. Boniface are conferring on the question of a new inter-municipal bridge to replace the present Norwood bridge.

Diamond-Dyes
Highest Quality for 50 Years

WRIGLEY'S

WRIGLEY'S is good company on any trip.

It's delicious flavor adds zest and enjoyment. The sugar supplies pep and energy when the day seems long.

In short it's good and good for you.

Something To Leave Alone

Guest Towels Seem To Serve No Useful Purpose

It has been said that "actresses may happen in the best of families." Another enigma is: "Why the guest towel?" Every family may not have an actress, but nearly every family has a set of guest towels. Why? Nobody uses them not even the guests.

We all know the lineup of towels on the rack near the bathtub. There are the ones for the family and those for the guests. No matter whether there are any guests or not, there must be guest towels.

The family dare not use them, and the guests, usually trained in the same manner in their own homes, also refrain for no other reason than "What is good enough for the host is good enough for me."

Rayon is not suitable material for paper-making, tests by government specialists indicate.

**Make dresses
bright as new!**

DIAMOND DYES are easy to use, go on smoothly and evenly; NEW. Never a trace of that dried look when Diamond Dyes are used. Just true, even, new colors that hold their color through the hardest wear and washing.

Diamond Dyes owe their superiority to the abundance of pure aniline they contain. Cost more to make. Surely. But you pay no more for them. All drug stores—15¢.

Geographical Features Named After Indian Chiefs Are Numerous From Coast To Coast

Geographical features named after Indian chiefs are numerous in Canada. It is exactly 100 years since the first appearance on a map of the name Petawawa. According to the records of the Geographic Board of Canada, Petawawa River occurs on a map made in 1829 by Colonel John By, who built the Rideau Canal.

The name is now applied to the military camp on the Petawawa River in Renfrew County, Ontario. The Indian chief, Petawawa, is said to have hunted in the region and the meaning of the name is "the sound is coming" or "approaching sound."

In some cases an Indian has been commemorated by a name given him by the whites. There are several examples of this nature in New Brunswick, where Barnaby River, Bartibog River, Cain River, and Taxis River bear the names of Indian chiefs who once lived on these streams.

In Quebec the town of Donnacona recalls the "Lord of Canada," who was taken to France by Jacques Cartier, in 1536, and died there. In Manitoba, Peguis post office takes its name from a Saulteaux chief who, in 1835, was granted an annuity of \$25 by the Hudson's Bay Company. He was a friend of the colonists of the Red River colony (Winnipeg), and well deserved to be a chief.

In Saskatchewan, Cutknife Hill, according to tradition, commemorates a Sarcee who was killed in battle with Crees. In Albert's Crowfoot Village, Mekasto railway station, and Chiniki Lake, are a tribute to the worth of Indian chiefs who on the coming of white men ceded their title to vast acres and forsook tribal warfare. Crowfoot, head chief of the Blackfeet, was a keen business man, not a warrior, who kept his tribe at peace with the whites. Mekasto, or Red Crow, head chief of the Southern Bloods, was loyal throughout the 1885 rebellion. Chiniki was a Stoney Indian chief.

Kanaskis pass, in the Rockies, commemorates an Indian who made a remarkable recovery from the bite of an axe. Pouce-Coupe River, in Alberta, and British Columbia bears the name of a Beaver Indian chief who settled on the river with 500 followers.

The name is French for "cut thumb." In British Columbia, Kinbasket Lake, an expansion of the Columbia River, was so named in 1866 by Walter Moberly, C.E., after a Shuswap Indian chief who was of service to him on an exploratory trip. Nicola Lake commemorates an Indian chief whose other name, Nwistermeekin, meaning "walking grizzly bear," well describes his character.

To Grow Early Potatoes.

B.C. Association Imports' Certified Seed From Prince Edward Island

For the purpose of supplying the prairie markets with early potatoes, some fifty farmers on Lulu Island, British Columbia, have formed the Richmond Early Potato Growers' Association. Each member will put in a special plot of two or three acres of early potatoes, which will be planted simultaneously at the end of the present month, so that they will be ready for market at the same time. Irish Cobbler has been selected as the variety to use and a carload of certified seed has been imported from Prince Edward Island.

Pankhurst Statue Unveiled

A statue of Mrs. Emmeline Pankhurst, who led the movement for the enfranchisement of women in Great Britain, was unveiled in Victoria Tower Gardens, Westminster, in the presence of many of the leading fighters in the suffrage cause. Many political leaders were present and Stanley Baldwin, the former Premier, performed the unveiling ceremony.

"Sing us a song."
"I dare not with all these people."
"Pooh, they won't listen." — Mrs. Nette, Vienna.

W. N. U. 1831

Here To Give Service

Paper As Community Affairs Has Most Difficult Task

A newspaper is different from any other business. It is a community affair. It is for service to the people, and not for any individual. The job of a newspaper is first to provide news to those who subscribe to the paper. Then pay in advance because they want news and the newspaper's part of the contract is to provide the news. That is why newspapers find it hard to compete with requests by individuals to leave out items of news. If newspapers left out unpleasant news to individuals every time they were asked to do so, the news would eventually arrive when there would be no newspaper.

In the case of court cases the newspaper treats such as cases, not as individuals. There is no more animosity in a newspaper reporting public proceedings than there is in police or other public officials doing unpleasant things to individuals, such as taking them before the courts. It is part of the job in each case. In the instance of newspapers with police and other officials, care is always taken that the innocent shall not suffer.

Newspapers have to be trusted to do the right and fair thing as far as possible at all times, consistent with adherence to the clear and straight path of duty. The task is always a difficult one, and the public should realize it.

Problems Poultry Men Have Not Solved

Why Eggs Should Differ According To When They Are Laid

Why should eggs laid in January, February, and March, make light cakes, and eggs laid in May, June and July make heavy, soggy cakes? Why should eggs laid in March give a low percentage of chickens as compared with eggs laid in January, February, April or May?

These were some of the unsolved problems mentioned by Professor R. K. Baker, head of the poultry department at the University of Saskatchewan and producer of the world's champion hen, in his discussion before the Saskatoon branch of the Canadian Society of Technical Agriculturists on "some discoveries that have affected poultry breeding."

Discoveries regarding vitamins had made the 300-egg hen possible. Leg weakness, partial paralysis and crooked keel bones were becoming rare since vitamins had been studied and the birds were getting sprouted oats, cabbage, carrots and cod liver oil.

X-ray experiments on eggs were giving interesting results. A short exposure is said to improve the hatching percentage of the eggs. An exposure of 5 to 20 minutes is said to increase the rate at which chicks grow after hatching. An exposure of several hours is said to affect the sex ratio of chicks so that more of the chicks are females.

When the University of Saskatchewan flock was started in 1913 the laying average was less than 100 eggs per hen. By 1926 it was over 175 eggs. Last year's average has only been worked out for one family. The 44 daughters of one bird average 217 eggs. There was not a poor bird in the family. The 358 egg champion came from another family.

Colour Indicates Real Grade

Maple Sugar Or Syrup Of Light Color Is The Best Grade

The maple sugar industry is one of the oldest known to this continent. It was brought to the early settlers by the native Indian and today is of outstanding commercial interest. The Dominion Department of Agriculture finds that quality in maple sugar and syrup is clearly indicated by colour. The grading rule is the lighter the product the better its quality. Grade 1 is very light in colour, corresponding closely to clover honey in appearance. Grades 2 and 3 are perceptibly darker, while Grade 4 corresponds quite closely to the colour of buckwheat honey. Quality counts in maple products as in everything else.

Completing Dairy Survey

Dr. Miseren, of Cornell University, N.Y., has returned to his work, after completing the field work of a survey of the dairy industry of Saskatchewan. J. K. Finlayson, of the Saskatchewan Markets Branch, has gone to Cornell with him, where he will complete the summarization of the facts and figures, which will occupy about two months.

Nearly 30,000 tons of beans were produced daily during the recent bean harvesting season in southern China.

COLONEL W. G. BARKER, V.C., D.S.O., M.C.

The photograph here shows Col. W. G. Barker, V.C., D.S.O., M.C., with bar, who was instantly killed in Ottawa, when his aeroplane stalled at a low altitude and crashed to the ground. Col. Barker was one of the greatest of Canada's war aces, having 52 enemy aeroplanes to his credit.

Three Hundred Millions Spent By American Tourists In Canada During Year 1929

Hard Legal Problem

English Magistrates Puzzled Over Definition Of "Farmer"

What is a farmer?

Hundreds of people who gain their livelihood from their own land in the counties of England are affected by that legal question.

Large sums of money, too, are involved, dependent on the answer to the problem is the amount of rates which may, or may not, have to be paid by the men and women who consider themselves "farmers" in the legal sense.

Is, for example, a bee-keeper a farmer? Can a keeper of chickens be called a farmer?

One side of the difficulty has been settled by the Oxfordshire Quarter Sessions in considering a rating application—the first case of its kind: The magistrates at the Oxford County Hall decided that a bee-keeper was a farmer, and, as such was entitled to have his home rated as a "farmhouse."

Christopher Bartlett, of Sandford Mount, Charlbury, appealed to the quarter sessions against the assessment of his house, because he was a bee-keeper. His house had been assessed at £100, whereas he maintained that as a farmhouse the assessment should not be more than £40.

"He is the largest bee-farmer in England," said E. Gorst, counsel for Mr. Bartlett. "His home has been assessed as a country house, whereas it is used by a man who is working an agricultural holding and is therefore a farmhouse, in fact."

Dr. Earengay, counsel for the rating authority, and one of the foremost barristers on the Oxford circuit, submitted that bee-keeping was not farming. R. T. Barrie, the rating officer for the Chipping Norton Council, gave evidence that, in his opinion, £100 was the fair and proper assessment for Sandford Mount.

Eventually the magistrates upheld the appeal of Mr. Bartlett, and fixed the assessment of his home at £60—a reduction of £40 from the former rateable value.

Publicity For Grain Show

Exhibits Will Be Displayed At World Poultry Congress

World Grain Exhibition and Congress, to be held in Regina, in 1933, has obtained exhibition space at the World Poultry Congress, to be held in London this year, at Crystal Palace, London, England. Oscar Turett, Canadian Exhibition manager, London, England, will arrange the display, which will occupy a square with 576 square feet of space at the entrance to Crystal Palace.

The World Grain show will have the display of grains and other crops to be exhibited in Regina situated in the commercial section of the displays at the World Poultry Congress, and announcements of the World Grain Show, such as are being distributed from Regina, will be distributed from the exhibit square to delegates from all parts of the world attending the congress.

Similar exhibitions of grain and associated crops will be made at Antwerp, Paris and Buenos Ayres under the personal direction of Mr. Turett.

Plant Clean Seed

Need For Planting Clean Seed This Year Is Greater Than Ever

Before

You may not always be able to afford finest quality registered seed for planting, but you can always afford clean seed for planting. The seed branch of the Dominion Department of Agriculture are urging the planting of clean seed this year more than ever before—clean seed pays, particularly with the weed menace reaching the alarming proportions it does in many parts of Canada today.

There are many effective ways of cleaning seed, depending upon the quantity to be cleaned, location and equipment. In many parts of Canada seed cleaning machinery is readily available for the purpose, while in others suitable screens can be adapted to the fanning mill, and in some of the more remote sections the old pioneer method of wind-cleaning is always available.

"To attain happiness," says a lecturer, "one must vibrate in tune with one's environment."

According to that, a man with St. Vitus Dance at a jazz concert would be in perfect bliss.

A first edition copy of Dickens' "Great Expectations," was sold recently in London, for \$1,275.

Gold from the south washes over the international boundary in great waves as soon as the tourist season begins. The year 1929, for which figures are just made public, was the best on record. Practically 300 millions were spent in Canada last year by tourists.

Canadian tourists in other countries, mainly the United States, were also generous with their cash, keeping in mind the Dominion's small population. One hundred and eleven millions were spent by Canadians in other countries, according to Bureau of Statistics' estimates.

The balance of tourist business in Canada's favor, amounting to some 189 millions, was twice as great as the adverse trade balance (visible balance) for 1928.

The expenditure grows by leaps and bounds. Automobile tourists from the United States spent \$26,000,000 more last year than in 1928, and steamer and train tourists another \$8,000,000 more.

When tourists' expenditures are added to "visible" trade figures with the United States, expenditures here to exports, and Canadian expenditure there to imports, the present difference of \$350,000,000 in favor of the United States is cut in half.

Less than a decade ago (1920) the expenditures of tourists in Canada was calculated at \$83,000,000.

Oldest Trainman

Canada's Oldest Trainman Celebrates Birthday at Truro, N.S.

Claiming to be Canada's oldest trainman, Robert Williams, of Truro, N.S., rounded out the ninety-one mark on March 1st. He was born at Water River, Antigonish County, Nova Scotia, March 1, 1839, and when seventeen years old got a job on the construction of the Nova Scotia Railway. Feeling the call of the sea, he joined a sailing vessel and rounded "The Horn." On a trip from Liverpool, England, with troops for a far-off station, the ship was wrecked while rounding "The Horn," and he was among the 49 saved. Once he fell forty feet from the rigging and broke an arm and also injured an eye. In the early seventies, he decided to give up the sea, and, in 1874, joined the service of the Intercolonial Railway, now part of the Canadian National Railways System, and retired on pension in 1910, at the age of seventy-one.

Russian Bees Stingless

Entomologists Have Proved This After Three Years' Experiment

That everything from Russia is not dangerous was established with the announcement that Russian bees do not sting. This was the result of three years' experimenting at the agricultural station at New Brunswick.

The bees from Russia produce as much honey as Italian bees, but swarm less frequently, it was said. During the entire experimentation period neither Ray Hutton nor B. F. Diggers, entomologists at the station, ever were stung.

Earned His Publicity

Floyd Waite, of Los Angeles, claims the world's record or whatever it might be called for staying buried six feet in the ground in a box with a six inch pine and a telephone for outside connections for 391 hours, and no one has been found so far who does not agree that he is welcome to it. Floyd was buried Feb. 22 with nothing for company but a telephone.

"You will suffer poverty until you are sixty-five."

"And then—and then?"

"You will have got used to it."

"You said I was a rogue, a liar, a swindler—I have proofs of it."

"Then you know what I said is true." — En Roliq Half Timma, Geth-efborg.

"Sing us a song."
"I dare not with all these people."
"Pooh, they won't listen." — Mrs. Nette, Vienna.

VIKING

A number of friends remembered J. L. Dodd's birthday anniversary last Saturday evening and perpetrated a surprise gathering at his home. The evening was spent in playing bridge until eleven o'clock when a delicious lunch was served. As most of those present were old-timers in the district, (Mr. Dodd's having been station agent here for the past twenty years) many incidents of the past were recalled. A remembrance of the occasion was presented to Mr. Dodd with wishes for many more years of good health and happiness. In his characteristic way, interspersed with some good stories on some of those present, he very fittingly thanked the guests for the token and the party.

Among those who attended the Arabian Nights Concert and dance at Mannville last Friday evening were the Misses Eva Havens, McPhee, Mona and Rita Burgess, and the Messrs. Richard and Earl Lawes. A very good time is reported.

A large crowd attended the sale on the K. McPherson place last Wednesday and everything that was offered brought a fair price. We understand that Mr. and Mrs. McPherson will leave for the coast shortly to re-side.

We are glad to report that the condition of Mr. Basil Hilliker who has been confined to his home for the past two weeks is somewhat improved.

Mrs. L. P. Woodhams accompanied Mr. Woodhams as far as Viking on Wednesday and from there went to Viking to visit her sister, Mrs. Bainbridge—Camrose Canadian.

Thos. G. Dark, Edmonton eyegist specialist, will make his next professional visit to Viking, on Monday April 7th between the hours of 2.30 and 5 p.m. If your eyes need attention see him.

Carper, who recently arrived from Vancouver, who is a pianist of exceptional ability, is locating here permanently and is prepared to teach piano and voice. Note his card in this issue.

Miss Pearl Hodgins, Brown, J. Johnston, H. Arnott and A. Hokerud, were Sunday visitors at the home of Mr. and Mrs. F. Brown.

Raymond Reishus who is working in Marwayne spent a few days at his home in Viking, returning to Marwayne on Monday.

Baby Thomas Andrew McFarland.

After a prolonged sickness Baby McFarland, son of Mr. and Mrs. T. A. McFarland, of Rutherford district, passed away last week in the Vegreville hospital. The Funeral Service was held in the United Church on Saturday afternoon. Rev. Mr. Bainbridge spoke suitable words of comfort and hope based on the theme "David at the Death of His Child—I shall go to him but he shall not return to me." "There's a Friend for Little Children", and "Safe in the Arms of Jesus" were the hymns sung.

A large number of friends and neighbors gathered to sympathize with the bereaved family. Interment was made at the Viking cemetery.

A very happy and enjoyable gathering was held at the Ralph Carrington home southwest of town on March 17th when about 'sixty people were present. Part of the evening was taken up in the nature of a concert at which Miss Stimson gave an excellent exhibition of the highland sword dance and Irish jig. Another enjoyable number was the solo by Butler Stoney "A Little Bit of Heaven." Capt. Logan who was in fine voice sang "The Trumpeter," while Mrs. F. J. Detmold sang that favorite "The Rose of No-man's Land." Mrs. Priest was the accompanist. A buffet supper was served and dancing was continued after midnight.

The Viking "Junior Ball" will make its debut on Thursday, April 30th at the Community Hall and have arranged a very promising program which consists of eight selections by the band, sketches and solos by members of the organization, a talk on the influence of music in the home by Rev. Mr. Bainbridge, and a talk by Rev. Fr. O'Neill on the influence of music in the community. There is also a one act play called "Rats" for good measure.

The band has been rehearsing diligently since organized by Mr. Basil Hilliker about eight months ago. The band has 39 charter members, all of whom had practically no knowledge of playing a band instrument before Mr. Hilliker began instructing them. Everyone will agree that he undertook a herculean task, and it is no small satisfaction to himself and the community at large that they are already proficient enough to make their debut.

The concert is given to raise funds for music and supplies to carry on with, and the public can show their appreciation of the good work that is being done by filling the hall to capacity the evening of the concert. The concert as a whole will well be worth the price of admission. Turn out everybody.

Household Hints

KISSES—1-1/4 lb. butter, 3-4 cup of white sugar, 1 egg, 2 dessert spoons milk, 1 tspn vanilla, 1 cup corn starch, 1 cup flour, 3-4 tspn baking powder. Drop in 120°F. temprature in a greased pan. Bake in quick oven. Stick together in twos with this filling: 3 tbsps icing sugar, 1-2 tbsps butter, 2 tbsps milk; heat to icing. Dip tops in melted chocolate.

Mrs. Kastor's Recipe.

TOMATO SALAD—1 tbsp. gelatin 1-4 cup cold water, 1 lbs. onion juice, 2 cups canned tomatoes, 1-3 tsp. salt, 1-2 cup choiced celery, 1 cup shredded cabbage, 1 tbs. cold vinegar, few nut meats. Soak gelatin in cold water five minutes. Heat tomatoes, onion juice and seasoning to boiling point. Add soaked gelatin and vinegar, set in cold until partly thickened. Add vegetables and put into wet mold. When firm turn out on lettuce or crisp inner cabbage leaves. Garnish with salad dressing. Makes delicious salad for four.

FLU IS SPREAD BY

DIRECT CONTACT

Ottawa, April 2nd—Probably the only method of spreading human influenza is passage of the germ from one person to another and avoidance of the disease is based on preventing contacts with sufferers, according to a statement made public by the Public Health Service.

In the statement which was issued it reads: We do not yet know exactly what causes epidemic influenza, but we are at least sure that it is not due, as our forefathers used to suppose, to volcanic eruptions or earthquakes or to poisonous gases emitted from the stars. There is every reason for believing that influenza is a typical infectious disease caused by a living, although yet undiscovered, germ or microbe.

There is no evidence that the germ is ever conveyed by drinking water or milk, or that it can be blown about in dust for a period of time. Neither is there any evidence that biting insects transmit influenza in the way they are known to transmit such diseases as malaria or the bubonic plague. Although domestic animals, such as horses, suffer from diseases resembling influenza these diseases are caused by different microbes and have nothing to do with the human infection.

All that is known about human influenza supports the view that the germ is passed more or less directly from one human being to another. Probably this is the only mode of transmission. Small particles of mucus or saliva may be dislodged from the nose or throat in the act of sneezing, coughing, loud talking or laughing, and they may contain the germ of influenza. It is a wise precaution, therefore, to avoid too close contact with influenza patients, just as it is well to avoid contact with persons who have colds.

Various vaccines, serums, prepared medicines and drugs and even alcoholic beverages are sometimes urged as preventatives against influenza. There is yet no evidence that any of them are of value in warding off the infection. At the first signs of illness the patient should be as completely isolated as possible. Every individual should exercise due precaution to protect himself and to avoid transmitting it to others, should he contract the disease.

DOLES IN NEW ZEALAND

Ottawa, April 2nd—Faced by an unemployment situation of considerable proportions, New Zealand has turned to the dole system. Payments to men over 20 years of age will average about \$5.25 a week and women will receive \$4.37 weekly.

Men between 18 and 20 years of age will receive \$2.75 and women of that age \$3.18. Married women will receive \$4.37 weekly with an additional dollar for each child under 16 years of age, up to four children. A fund of \$3,500,000 will be distributed annually and is to be provided by contributions from persons over 18 years of age.

Have you some piece of machinery, a set of harness, a buggy, or some other farm implement, for which you have no further use; but which might be of value to someone; or do you wish to trade or buy one of the above articles? Use classified ads, they usually get results and are an inexpensive way of buying or selling used articles.

The Wastebasket

Heard on the street: "Is that second hand automobile that Bill bought a success?" "Yes, to a certain extent. He's using it to run a wood-sawing machine."

Heard at the Kinsella dance: "Why did that Irma girl slap that young fellow she was dancing with, in the face?" "Well, he told her she danced like a zephyr, and she thought he said 'heifer'."

People with mistaken views: Those who think that the silly part of the program in the movies is the purpose of entertaining somebody else.

The way for you to straighten out your financial difficulties is to try to live within your means from now on, said a banker to a fellow. "With-in our means? Certainly not! We may be poor, but we're not as badly off as that," the fellow replied.

A young fellow from over in Killam was calling on a girl one evening last week, and as usual with men sat around and talked of the thing of most importance—himself, until he got rather tired of it. At last she said: "Let's go for a walk." "Walk! What for, when I've got the car out in front?" he asked. "Well, it's the doctor's orders," she replied. "He told me to exercise with a dumb-bell every day."

Here is a puzzle for the young people to figure out when they have a little time on their hands: "Old Mr. Jones died leaving an estate of 17 miles. He willed half the estate to his widow, a third to his son and one ninth to a nephew. Nobody wanted a part of a mile. While the row was on Parson Wombat came along on his mule, saw the situation put his own mule in with the rest, making eighteen and told the family to divide the estate. The widow took her half, nine; the son his third, and the nephew his ninth, two, making a total of seventeen miles. Parson Wombat then took his own mule, the eighteenth, and rode happily away."

How to become an efficient gossip: Attend strictly to the neighbors; watch them; never mind your business, that will take care of itself. If you know, or even guess at anything against one of them, spread it around and never let it rest. Never keep it silent. It is said there was silence in heaven once for half an hour, but you must never let such a thing happen on earth. If you never knew anything bad about a neighbor feel dead sure you have been looking off for a while and that he has been carrying on his devils when you didn't know it. Find out all the bad things you can about people and guess at the rest, and you will be happy when you die, and so will everybody else.

No Money To-day
But mister—you say, me-money
you pay.

But no! I got no money to-day
I got lotsa trouble—the machine
companee.

They send the po-lish-man after me.

He seiza my horse, he seiza my cow

He seiza my binder, he seiza my plow

What can I do?—I got ta make pay,
Sometime—I tink... me go—cray—
zay!

You know last year I got no much
crop

No rain—come frost—ever'ting
stop,

I got no much flour, I got no much
meat,

I got no much cabbage—the kids
loza eat.

I say to my wife—son of a gun

We got loza kid—now you get
noder one.

What you do for dat, I say—

Sometime—I tink—me go—cray—
zay!

AUTO STALLED ON
JASPER, IS LEFT
WITHOUT LIGHTS

If W. L. Campbell, 11028 88 Avenue has a car stalled on Jasper avenue again at night, he will know what to do about it.

Campbell's car stalled near the intersection of Jasper avenue and 108 street at 12:15 a.m. on Wednesday, so he left it there—without lights, according to witnesses—and it was discovered by Adam Lutz, 10128 99 Street, who crashed it from the rear at a speed which is variously given as being to 20 to 40 miles an hour.

Lutz said that he was going at 20, and that he thought the car was moving, although it had no lights. Both cars were damaged, while Lutz had his lips cut. Joe White, 10746 Jasper Ave. said that Lutz' taxi was going at 40 miles per hour. Campbell told the police that he went to a garage to get help, when he left his car, Edmonton Journal.

Farmers Mutual Lumber Co. Ltd.

At Your Service

When it comes to building material we have the best that money can buy. Good clean Fir dimension, Spruce Shiplap and Common Boards. We also have several special buys in V Joint half inch and the regular one inch stock, also Flooring and Siding at a Special Price. We have in stock 3-Ply Fir Veneer, just what you want for the odd jobs around the house. How about some Storm Sash? They save fuel and pay for themselves in about two years.

ONE GOOD RECIPE
MAKES A COOK FAMOUS

In the winter there is such a glorious variety of fruits and vegetables with which to compose salad masterpieces. When a crisp salad accompanies a meal composed of hearty winter foods, it brings with it more than the appeal of its vivid color and delicious flavor, for it has as well the health giving minerals and vitamins which are necessary.

For a Fruit Salad with Cheese Dressing, remove the pulp in sections with a fork until thoroughly blended. Serve six.

Date March 26th, 1930.

R. Headon, Poundkeeper, P. O. Fabyan.

A TRIBUTE

(To Katie McCormick Love)

Thanks to God for womanhood like hers.

Radiant with love, and comradeship and cheer.

Ten thousand girls are on the fine highway.

Because in her the Christ light shone so clear.

Deep in our hearts her memory fra-grant lies.

Unto her God we pledge ourselves anew.

By joyous service not by tears, to show.

Love us to BE her tribute richly due.

—CANDACE.

Bulleton.

CARD OF THANKS

We wish to thank the friends and neighbors for their kindness and help in our recent sad bereavement.

Mr. and Mrs. W. M. Morgan

and Family.

FUNERAL OF GEO. W. PRICE

(From The Viking News)

Another veteran of the Great War answered the last summons on Tues-day, March 25th, when George Wil-liam Price, of the Bruce district, met death from the accidental discharge of a loaded shot gun which struck him in the head just as he had stepped through a small wire enclosure on his farm. He evidently had leaned his gun on the fence and as he pulled it through with the barrel in his hand, it was discharged with fatal results.

The funeral was held on Sunday, March 30th, at the S. Matthews Anglican church, Viking, at 2:30 p.m. The church was crowded to capacity with a large overflow outside. The Rector, Rev. A. Loyd-Bee and his assistant, met the coffin at the entrance to the church and read the burial sentences as it proceeded to the altar. The casket was draped with the Union Jack, also the altar, while the flag in the chuchyard was flown at half mast. The widow was accompanied by friends and relatives from Bruce district.

The Rector gave a most impressive address to the mourners on sorrow, hope, joy and peace. Mrs. Gillespie played the Dead March and suitable hymns were sung. Six war veterans and comrades of the deceased, Capt. Logan, W. R. Hughes, F. J. Detmold, Thos. Crotty, Jack Reay, and A. McWilliams, wearing their medals and decorations, acted as pall bearers.

A long procession of cars carrying mourners and sympathizers, slowly wended its way to the cemetery where the body was committed to earth. At the conclusion of the brief ceremony the notes of that most poignant of bugle calls, The Last Post, were played by Trumpeter Doncaster, of C. 49th Band, Edmonton, who had been a life long friend of his dead comrade.

Beautiful flowers adorned the casket and were, a family wreath from May, John and Frank; wreath from Canadian Legion; flowers from Alfred and Nellie Doncaster; Mr. and Mrs. J. Reay; Bruce Women's Institute; and Mr. and Mrs. C. G. Purvis.

George William Price was born in Nottinghamshire, Ashkham, England, September 15th, 1885, and died on Tuesday, March 25th, at the age of 45 years and six months. He served in the Royal Field Artillery for three and one-half years during the great war, where he was badly gassed. He came to Canada in the spring of 1922 and took up a farm in the Bruce dis-trict. He was married short'y after his bride coming over to join him here. He was held in high esteem in his community and will be greatly missed by all who knew him.

He leaves to mourn his loss, his wife and two little daughters, Mary and Margaret, his aged mother and a brother in England, a brother in Australia, three sisters in England, and a brother John Thomas Price, of Bruce.

Much sympathy is felt for the wid-ow, children and relatives in their sad loss.

J. Gilchrist, traveller for Gainor's Edmonton, died at Jasper, while making his regular trip on his territory. He was 34 years of age. He was em-ployed in the bank here some twelve years ago, but resigned to go on the road. Known as "Gill" he was a popular salesman, and his friends throug-hout the towns and the travellers fraternized in general, will miss him.

Capt. Hudson, of Wainwright, provincial organizer for the Canadian Legion, paid a visit to the local branch on Saturday. On Sunday afternoon together with R. F. Kelcey and J. H. McLellan he visited the branch of the Legion at Killam where a short conference was held. The Killam branch has recently acquired a club room through the generosity of Mr. Larson, a former resident, who has also donated his fine large residence to the Legion for hospital purposes.

Two former employees of the Viking creamery, Percy Jones and R. M. Callander, recently government cream graders for the provincial dairy pool, have been arrested on a conspiracy to defraud. Details of the charges have not been made public but it is understood that they relate to alleged fraudulent issuing of cheques to per-sons, either not shippers of cream, or actually fictitious people.

On Monday night in the Town Hall a large and enthusiastic group of ten-nis fans selected the following executive for the present year.

Honorary President—A. T. Richard-son,

President—Dr. G. Saunders,

Vice-President—Mrs. S. Lefsrud,

Sec.-Treas.—Dr. B. Richardson,

Committee—Miss Gladys Harris, A. Loyd-Bee, J. W. Bainbridge.

President—Dr. G. Saunders,

WORLD HAPPENINGS BRIEFLY TOLD

Prof. Joseph Coke, of the Ontario Agricultural College, has been appointed assistant commissioner of agricultural economics with the Dominion Department of Agriculture.

The Transvaal's gold production last year totalled approximately \$220,000,000. A new record, it was announced at the annual meeting of the industry.

The King and Queen of the Belgians have defied the reputed curse of the Pharaohs. With Howard Carter, King Albert and Queen Elizabeth visited the tomb of Tut-ankh-amen.

Manitoba now produces nearly one-fifth of the total Canadian output of leather gloves and mitts, according to Board of Trade figures. The annual production runs to nearly a million dollars.

The British, South African and Canadian farmers have concluded their tour of New Zealand and are now on the water bound for Sydney, Australia. Before leaving the visiting agriculturists termed their tour a memorable visit.

Eight million Chinese peasants, living in the 55 districts of Kiangsu Province, South China, are suffering the terrors of starvation. Banditry and crop failures are said to be responsible. Property loss is estimated at \$30,000,000.

The government icebreaker Mikuna is making good progress in breaking a passage through the ice to Montreal and there is evidence that this spring will produce a surprise in regard to the early opening of navigation.

It was authoritatively stated that nothing was known in London regarding a report from the United States that the Prince of Wales proposed visiting Canada and the United States next summer. The Prince is expected back from his African trip at the end of April.

Bolivia May Have Exhibit

Grain Growers Encouraged To Take Part In World Congress

Bolivia has formally acknowledged the invitation to that country to be officially represented at the World Grain Exhibition and Congress in Regis, 1932. The country has not decided officially that it will be represented at the World Grain Show, but said that it was desirable that they should be represented officially at the show in Regis in 1932.

Considerable encouragement was being given to grain growers of the republic to exhibit at Regis and the World Grain Show, it was said.

Testing Sugar Beet Areas

Selections Made In Manitoba Of Zones For Planting

Five areas where beet growing tests might be made in Manitoba have been selected by the special industrial development board meeting. Farmers have been approached in these zones and arrangements to plant made. Messrs. Bigham, manager of the Grand Forks Branch, and Lund, field supervisor of the American Sugar Beet Company, will be asked to visit Manitoba to make the final selections; it has been decided.

Irish Magistrate: The defendant swears he was perfectly sober.

Policeman: He was absolutely inebriated. If he had been perfectly sober he would have known he was drunk and not made a disturbance.

The Ireland of "America" may be said to be Maine, New Hampshire, and Vermont, for snakes seldom are seen in these three states.

Wet Feet

Endanger the whole system. Play safe by bathing in Minard's and hot water.

Back To Civilization

Deprived Of Its Comforts People Realize How Wonderful It Is

"The men of the Byrd Antarctic expedition scattered all over Dundin," writes Russell Owen, staff correspondent of the New York Times, "revelling in the shops, walking the hard pavements with joy at the unaccustomed sensation of not sinking in at every step, eating enormous meals and generally having the time of their lives. It seems too good to be true to be ashore again and dodging automobiles." And loafing in barbers' chairs, no doubt, and luxuriating in hot baths, and commanding bell boys to do trivial errands, and declining all drinks made with ice, and watching the sun go down at night. It is somewhat pathetic indeed, to read of the delight which can be caused by these prosaic things that have become so commonplace to the rest of us; somewhat chastening too, for it serves as a reminder that we should take our civilization on trust, not for granted. Even at Thanksgiving time, we are somewhat mechanical with our gratitude for the blessings to which we have fallen heir, but it seems some of these events were to deprive us of these blessings, as the men of the Byrd expedition have been deprived of them for the last year, we should realize pretty quickly that even food, clothing and water are things that have been wrested from the earth by painful labor and that it is a dreadful headache to be without them. The main objects of the expedition, of course, have already been attained, the game has been won, the goal posts torn up, and we witness merely the return of the team to its own home campus. Yet, so far as many of us are concerned, this return trip may provide more food for thought than the scoring itself. What is more stimulating than the discovery that the hundred world we live in may after all have a touch of the miraculous about it?

Winnipeg Newspaper Union

(By Annabelle Worthington)

Stressful work in the Canadian prairies has made preparations to tackle the growing menace of cancer as a public health problem. The necessary machinery is provided in the Act to establish a permanent Cancer Commission in the province, which has just been passed by the Saskatchewan Legislature. In this advanced legislation, Hon. Dr. Merton, Minister of Public Health, in the Co-operative Government, has enhanced the already high prestige of Saskatchewan in matters pertaining to the public health. Indeed, it has, thus far, in its ministerial capacity, ensured himself of a permanent niche in Canada's hall of medical fame.

In piloting the first major legislation of the House, Hon. Mr. Munro emphasized the necessity of co-ordinating efforts and providing the means to combat the scourge. Backing his arguments with a wealth of statistical information, he stressed the fact that a comprehensive anti-cancer programme must provide three main features: the education of the public; facilities for diagnosis; and the means for treatment. All three factors are provided for in the new Act.

Stressing the importance of the educational factor, Hon. Dr. Munro declared that "any one great health measure which all physicians labor at the present time is the delay on the part of the patient in consulting you," early diagnosis is the treatment, essential requirement of a successful campaign.

Provision is made in the Act for the establishment of a consultative diagnostic committee. In this provision, facilities will be provided for early diagnosis of the disease. Then, in order to overcome the prohibitive cost of radium therapy for treatment of cancer, a quantity of which was cited, the Act provides for the purchase of a quantity of radium by the Government.

In discussing this plan of the minister, Dr. Munro stated that it would be of great assistance in the treatment of cancer in two ways. In the great majority of cases the radium salt is used in various types and forms of casts and needles and needles. Then there also find food for use in the form of rays. The gas is collected from a quantity of the radium salt in solution into very minute tubes of gold, called "radio needles." Each radioactive atom is required to generate and purify this gas and, as well, to collect it and regulate the dosage in each seed.

The minister then stated that he would propose to establish an examination of the nature of the University of Saskatchewan whenever there was assurance of a sufficient demand for the radium seeds to keep the plant in full operation.

He also makes provision for the regulation of the sale of radium emanations and derivatives.

Operation of the Act will be assigned to a permanent Cancer Commission.

One and one-half grammes of radium will be procured, according to present intentions, at a cost of \$105,000 to \$110,000. It is his hope that the assurance that the diagnosis and treatment of cancer will be a free service, but definite assurance was given by the Minister that the charge will be nominal and that any payment would be made so that "everyone may receive the necessary service able to pay for it or not."

It can be had in sizes 16, 18 years, 36, 38, 40 and 42 inches bust.

Velveteen, grey wool jersey, navy blue silk crepe, rust brown coverlet cloth and blue-violet silk crepe, jaunty ideas.

DON'T SUFFER WITH DANGEROUS INDIGESTION

Do you suffer after meals with a burning from sour and acid stomach? Many believe they have heart trouble and tremble with fear, expecting any minute to drop dead. This condition can be prevented, please believe.

Take Carter's Little Liver Pills after meals and neutralize the gases. Sweeten the sour and acid stomach, relieve the gas and encourage digestion. The stomach is the seat of all disease. As soon as the poisons are destroyed, the disease disappears and the system enjoys a tonic effect. Don't delay. Ask your druggist for a 25c pkg. of Carter's Little Liver Pills.

Would Save Millions

Many Simple Forms Of Waste Could Be Stopped

How much water is wasted by a dripping tap? An answer was pro-

posed when New York decided to levy a fine of two dollars for every tap found leaking. In two years 40,000 million gallons of water were saved. It seems about time to consider the amount of steam wasted by a locomotive blowing whistle.

But Dr. Foley of Indiana University, has calculated that 2,434,020 tons of coal are consumed annually by generating steam to blow United States locomotive whistles, and that if the whistles were moved slightly forward and adapted to a single pitch-pot note, more than a million pounds a year could be saved. But this loss is small compared with that involved in throwing into the dustbin binders that would still give a lot of heat. It is estimated that a third of the binders thrown away retain from fifty to seventy per cent. of their heating value.

In piloting the first major legislative bill in the House, Hon. Mr. Munro emphasized the necessity of co-ordinating efforts and providing the means to combat the scourge. Backing his arguments with a wealth of statistical information, he stressed the fact that a comprehensive anti-cancer programme must provide three main features: the education of the public; facilities for diagnosis; and the means for treatment. All three factors are provided for in the new Act.

Stressing the importance of the educational factor, Hon. Dr. Munro declared that "any one great health measure which all physicians labor at the present time is the delay on the part of the patient in consulting you," early diagnosis is the treatment, essential requirement of a successful campaign.

Provision is made in the Act for the establishment of a consultative diagnostic committee. In this provision, facilities will be provided for early diagnosis of the disease. Then, in order to overcome the prohibitive cost of radium therapy for treatment of cancer, a quantity of which was cited, the Act provides for the purchase of a quantity of radium by the Government.

In discussing this plan of the minister, Dr. Munro stated that it would be of great assistance in the treatment of cancer in two ways.

In the great majority of cases the radium salt is used in various types and forms of casts and needles and needles.

Then there also find food for use in the form of rays.

The gas is collected from a quantity of the radium salt in solution into very minute tubes of gold, called "radio needles."

Each radioactive atom is required to generate and purify this gas and, as well, to collect it and regulate the dosage in each seed.

The minister then stated that he

would propose to establish an examination of the nature of the University of Saskatchewan whenever there was assurance of a sufficient demand for the radium seeds to keep the plant in full operation.

He also makes provision for the regulation of the sale of radium emanations and derivatives.

Operation of the Act will be assigned to a permanent Cancer Commission.

One and one-half grammes of radium will be procured, according to present intentions, at a cost of \$105,000 to \$110,000.

It is his hope that the assurance that the diagnosis and treatment of cancer will be a free service, but definite assurance was given by the Minister that the charge will be nominal and that any payment would be made so that "everyone may receive the necessary service able to pay for it or not."

It can be had in sizes 16, 18 years, 36, 38, 40 and 42 inches bust.

Velveteen, grey wool jersey, navy blue silk crepe, rust brown coverlet cloth and blue-violet silk crepe, jaunty ideas.

Pattern price 25 cents. Be sure to fill in size of pattern. Address Pattern Department.

COURT BOUILLON

2 cups cold water.

3 slices carrot.

1 slice onion.

1 sprig parsley.

2 tablespoons lemon juice.

Bit of bay leaf.

1/4 teaspoon peppercorns.

1 teaspoon salt.

Put ingredients in saucepan, adding head and bones of fish, if at hand, bring to boiling point and cook thirty minutes, or until reduced to one cup.

Use for sauces, fish aspic, to flavor the water in which fish is cooked, or as a foundation of a fish soup.

MARSHMALLOW WHIP

1 package strawberry flavored gelatin.

1 cup boiling water.

1 cup cold water or fruit juice.

9 marshmallows, finely cut.

Dissolve gelatin in boiling water.

Add cold water or fruit juice. Chill.

When slightly thickened, beat with rotary egg beater until like whipped cream.

Add marshmallows. Pipe lightly in sherbet glasses or pour into mold. Chill until firm. Serves 6.

CUT DOWN YOUR LOSSES BY INSTALLING WINDOLITE

Invest in WINDOLITE Windows and you will be repaid a hundredfold in the health of your Poultry and Live Stock

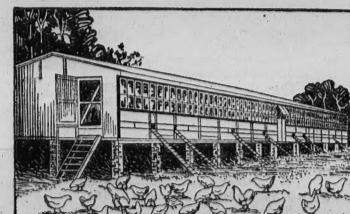

WINDOLITE

THE ORIGINAL GLASS SUBSTITUTE

MADE IN ENGLAND SINCE 1917 ON ORIGINAL PATENTS

This unbreakable glass substitute is light and flexible, easy to cut and fit, will withstand extreme changes in temperature, keeps out cold and wet, but

allows the full sunlight to enter, including the health-giving Ultra-Violet Rays, which do not penetrate ordinary glass.

Canadian breeders of poultry and livestock are finding Windolite a most satisfactory and profitable investment. Young chickens and turkeys are entirely free from leg weakness and disease and will thrive in confinement under Windolite. Windolite comes in rolls any length, but 36 inches wide only.

BOILS GO OVERNIGHT

Mark Holt, 30, of 10th Street, Lance, Trinity, South Africa, first vanished overnight. C. T. Scott, "a doctor who stops pain in minutes," boils go in fever-burns. At least 2000

cases of boils are treated every day.

Take Carter's Little Liver Pills

Sour Stomach

Just a tasteless dose of Phillips' Milk of Magnesia in water. That is an answer effective and reliable. It has been the standard remedy for 50 years among physicians everywhere. One spoonful will neutralize at once many times its volume in acid. It is the right way, the quick, pleasant and efficient way to kill the excess acid. The stomach becomes sweet, the pain de-

parts. You are happy again in five minutes.

Don't depend on crude methods. Employ the best way yet evolved in all the years of searching. That is Phillips' Milk of Magnesia.

Buy it, get the generic Phillips' Milk of Magnesia, prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

CHAPTER VII.—Continued

Jim replied, as he put a generous slice of shortcake on Grandma's plate: "You're right. The committee thought the fireworks would bring a crowd to the supper, and took up a collection for the cause. They got two dollars out of me, and I don't intend to miss the show. I tell you what, Grandma! You needn't miss it, either. I'll take you down in the car soon as it gets dark."

"My soul!" breathed Grandma. "I haven't been out in the evening since I don't know when. I doona what Charmian would say, or the doctor either, but," recklessly, "I'm going to do it! You finish up that shortcake, Jim. It's no good left over and 'twould be a shame to waste it. Charmian made it after Emmy Bascomb's recipe, and it's worth feeling a little sick next day over. Pour me another cup of tea, son. I must be fortified if I'm going gallivanting all the evening. I haven't got any green hat," she added with a twinkle, "but I'll wear my Sunday bonnet and put Great-grandmother Davis's gray crepe shawl over my coat, so you won't feel ashamed of your company. That shawl came clear from China, and a summer boarder who stopped in one day for a skein of embroidery silk, offered me three hundred dollars for it when she saw it hanging over my chair."

Jim whistled expressively as he arose to clear the table.

"I'd like to see the shawl I'd refuse three hundred for!"

"So would I," agreed Grandma, "but Charmian was mad at the woman for even offering it. She's got the Davis pride. You can set the dishes in the sink, Jimmy; and I'll go get ready if you'll help me into the north room. There's that dog again with another bone! I'd like to see where he's planning to put it, but there isn't time. It looks as if Gypsy was something of a miser; but at

Before Her Baby Came

"I have used several bottles of Lydia E. Pinkham's Vegetable Compound and find it helps me wonderfully, especially before childbirth. I have five lovely children. After my last baby came I had a miserable pain in my right side so I bought another bottle of the Compound and I feel fine now. I work outside during the fruit season in addition to my housework." —Mrs. Charles Slingerland, R.R. #4, St. Catharines, Ontario.

his third, was taken without leaving a friend in Wickfield because of her sharp tongue, he had engraved for her, 'A good name is better than precious ointment.' I declare, Jim, I've been curious to know what he said to Sarah. They fought like cats and dogs."

"I'll allay that curiosity in two minutes," promised Jim, as he alighted and crossed the patch of grass on the Purdie lot. He was shaking his head soberly when he returned and said: "It looks to me, Grandma, as if the deacon had run out of Scripture verses and taken to the poets. He says he never drew breath! Can you beat that?"

"No," Grandma admitted gravely. "I can't, and I won't try. Seems sort of like boasting Providence, uttering untruths like that, especially on a tombstone. While I've been sitting here, Jim, I came over what he might say about Lucia Moore, if she was taken first. 'I have commanded a widow woman there to sustain her.' What, you grinning about, sonny? It would be the truth, which is more'n the others are."

"It's right," said Jim, as he resumed the place beside her. "Or if he wanted a change from the Scriptures as we might suspect after what he says about Sarah, he could just put 'An old man's darling,' and be put in the other's grave."

Grandma endeavored not to laugh, but at last gave way to her natural impulse.

"I ought to be ashamed, thinking such thoughts and letting a boy like you think 'em too," she said regretfully, "but I never could bear Ed Purdie. He was a mean boy, always putting snakes and toads down the girls' backs; and once he hung little Willie Kingsbury down the schoolhouse well by the heels, and the chil'd was never the same again. My! isn't that bed of pansies handsome? Is it time for the fireworks to begin?"

"It's time we were finding a place to park; but we mustn't get so near that the sparks will fall on that three-hundred-dollar shawl! You warn enough, Grandma? If I let you take a cold, Charmian will give me time."

"She's liable to have fits herself if she sees me out this time of night," chuckled the old lady. "Let's stop near the church, Jim, so I'll see her face when she comes out and finds me. Here we are at the common, and Ezra Bascomb is bringing out a box—fireworks, most likely. That's right," as Jim stopped at the head of the Common. "This is a splendid place to see. And there's Charmian and Doctor Carter along with her. Hasn't he got fine straight legs, Jimmy? There! he sees us. They're coming this way!"

Grandma sighed. There it was again—the thing that kept Charmian from loving this nice boy. He couldn't see that those big panes of glass in more fitted the old Bascomb's than she herself would fit at cheap new hardware by the station.

"I don't want to see Emmy's widow," he replied, as the engine started. "They don't belong in that old house, but I'd admire to ride round the cemetery till it's time for the show. I haven't seen the moment that Dancer Purdie put up for his fourth wife. It's dreadfully expensive burying four wives, Jimmy. I suppose if he'd foreseen how things were going he could have had 'em all engaged on one stone, and saved a sight!"

"He's not careful," Jim responded soberly, "he'll have to invest in a bigger lot or be crowded out himself when his turn comes. They say he's making up to the Widow Moore, over South Wickfield."

"My stars!" cried Grandma. "She must be thirty years younger than Edgar Purdie, and has got six children!"

"Sure!" smiled Jim, as he slowed up on entering the cemetery gate. "If those kids should all pass out in an epidemic, Grandma, we'd have to call a town meeting and enlarge the cemetery."

"I'm afraid," said the old lady, trying her best to look severe, "that you're making light of serious things, Jim."

"It's not care," Jim responded soberly, "he'll have to invest in a bigger lot or be crowded out himself when his turn comes. They say he's making up to the Widow Moore, over South Wickfield."

"My stars!" cried Grandma. "She must be thirty years younger than Edgar Purdie, and has got six children!"

Clothes don't always make the man when in town. Refresh yourself: Try a First Class Meal or Lunch at the Hotel Irma.

Mr. C. W. Lattner, received a wire

Monday advising him of the sudden death of his mother at Kitchener, Ont.

Mr. J. C. McKay, has moved his family back to the farm for the summer.

Owing to the illness of Mr. Kiefer the show advertised for Wednesday night had to be cancelled.

Born to Mr. and Mrs. George Armstrong, Sunday, March 30th, a daughter. Both doing nicely.

Mr. W. H. King returned Thursday and reported that his son Norman was improving and expects to be around shortly.

The Irma Ladies Aid will meet at the home of Mrs. Reeds, Thursday afternoon, April 10th. All ladies are invited to attend.

Mr. and Mrs. E. L. Elford returned from Edmonton by motor Sunday. Mr. Elford reports the roads in good shape all the way.

The fine weather of the past two weeks has dried the land in most sections so the farmers can get an early start with their spring work. The roads are all in good shape and most of the main roads have been dredged.

The election for councillor for the Village of Irma, Monday, resulted in the election of L. A. Schon by a small majority. Mr. Schon received 39 votes and Mr. White 31 with one spoiled ballot.

The fine weather of the past two weeks has dried the land in most sections so the farmers can get an early start with their spring work. The roads are all in good shape and most of the main roads have been dredged.

Mrs. T. Rome returned Monday after visiting her husband at Edmonton. Mr. Rome is still very weak after an operation he underwent for appendicitis a week ago and it will be some time before he is able to return home.

Mr. W. H. King left Tuesday night to visit his son Mr. N. B. King of Fabian, who is confined to one of the Edmonton hospitals. Norman has not been doing as well as was expected and it will be some time before he is able to return to his home.

Mr. and Mrs. E. G. Woods and daughter of Portage La Prairie are visiting Mrs. G. A. Hipperson, sister of Mrs. Wood. Mr. Wood is moving to Hanna where he has a position with the Alberta Government.

Over thirty members of the Masonic Order and their wives met at masonic lodge rooms Monday night and enjoyed a pleasant evening with progressive whilst. Mrs. L. A. Schon received the ladies prize and Mrs. J. H. Elliott won the ladies consolation prize and Mr. Wm. Masson won first prize for men with Victor Larson taking the consolation. After the card party a dainty banquet was served.

Canada's Winter Golf Tournament

Victoria, capital of British Columbia, whose golfers enjoy their game the year round, is under the strong influence of the Japanese current, will hold its second annual Mid-Winter Gold Tournament under the auspices of the Empress Hotel Feb. 17-23, 1930. This tournament is an amateur handicap affair open to both men and women competing in their own sections. The principal trophy is the E. W. Beatty Challenge Cup, present held by T. L. Swan and

Mr. Hew Paterson of Victoria, although a large list of other prizes including pocket watches, will be awarded over the Colwood Golf and Country Club's course, which winds through a vast forest of Douglas firs, some of them 200 feet in height, and ancient gnarled oaks and cedar dating from the time when Vancouver Island was sighted by Capt. George Vancouver. If the entries become too numerous, the Victoria Golf Club will be held in reserve for the overflow. All visi-

tors to Victoria are eligible for this tournament.

Victoria, often called the "Evergreen City," is on the south tip of Vancouver Island and is one of the most picturesque and interesting cities in Canada. It is the gateway, via the Malahat Drive, to the center of an island paradise with vast trees, lakes full of trout, game and numerous mountains. There is splendid fishing in streams which flow into the Gulf of Georgia and the Pacific.
